

Durable, Quality Commercial Headphone

Rugged construction to handle wear and tear from continuous public use with audio and video exhibits:

- Rubber-coated heavy duty armored steel anti-theft cable
- Steel-reinforced headband with generous padding
- Soft foam earpads are easily cleaned and replaceable.

German-engineered with Quality Audio Components

- Copper-clad aluminum voice coil: power handling of aluminum combined with superior high frequency conductivity of copper
- Light diaphragm: precise detail and audio accuracy
 - Frequency Range: 20 Hz - 27kHz for warm high frequencies and tight, controlled bass

Headphone weight: ~ 8 oz.

Armored cable: ~ 44" long x .25" diameter

Audio cable with standard minijack plug (3.5 mm) extends ~8" beyond armored cable.

Total cable length: ~ 52"
