

SMALL ROUND LOW-PROFILE ILLUMINATED PUSHBUTTON

Photos and illustrations not to size.
Colors depicted are not exact.

- Pushbutton can flash to attract visitors and/or illuminate to indicate selections made.
- Can be used non-illuminated
- Low profile enhances interactivity. Button rises only ~ 3/16" above panel surface when used without riser bezel or with bezel behind panel.
- Long stem; fits metal or wood panels up to ~1.25" thick
- Microswitch reliability tested to 10 million cycles
- Low-power, low-temp LED cluster lamp rated for long life of 100,000 hours
- Standard lens: white/clear
- Special order lens: red, amber, yellow, green, blue
- Assembled, wired and shipped ready to install when ordered as part of interactive projects
- Square, rectangular and triangular shapes and larger sizes also available
- Pushbutton wrench available

LOW PROFILE PUSHBUTTON PARTS: Button, removable bezel, tightening nut and switch with long-life LED cluster lamps
