

Jumbo LED Diffuser Lens

**SIGNAL
INNOVA**

Diffuser Lens front diameter is 2.75". Shown with a U.S. quarter for scale.

Two spring-mounted tabs make installation a snap.

Oversized diffuser lenses for oversized effects!

With an RGB LED installed inside, the acrylic diffuser lens illuminates in red, green, blue or white when the LED is activated.

At nearly 3", the LED lens effect is dramatic and attention-getting!

Easy-to-install aluminum housing with spring-mounted tabs.

Diameter: 2.75" front, 2.25" back

Height: 1.875" total, 1.125" exposed
